

**YOU WERE NOT
IMPROVING SOMETHING.**

YOU WERE THE BEFORE.

WHY THE WORK GOES QUIET

MOST WORKPLACE EVIDENCE IS COMPARATIVE.

A baseline moved. A number improved. A cycle time dropped.

FOUNDATIONAL WORK HAS NO PRIOR STATE.

The instrument that would have recorded it
did not exist yet.

THE THREE MOVES

1 RECONSTRUCT THE BEFORE

2 NAME WHAT YOU BUILT

3 SHOW WHAT IT RETURNED

MOVE ONE

DOCUMENT THE ABSENCE YOU WALKED INTO.

Not the state of the world when you arrived.

What was missing from it.

WHAT DID NOT EXIST?

No owner

No system

No shared language

No baseline anyone trusted

No decision process

No relationships across functions

No standard

No repeatable method

MOVE TWO

**THE OUTPUT IS THE
SMALLEST PART.**

**DEFINITIONS · RELATIONSHIPS · DECISIONS
ALIGNMENT · REPEATABLE CAPABILITY**

What the organisation can do now that it could not do before.

**JUDGMENT IS THE PART
THAT DOES NOT TRANSFER
INTO A SLIDE.**

Name the choice. Name the alternative you rejected.
Name the reason.

MOVE THREE

WHAT IS DIFFERENT NOW?

ADOPTION · CONTINUED USE · BETTER DECISIONS

REDUCED AMBIGUITY · REPEATABILITY · RECOGNITION

A CLEAN HANDOFF · A CAPABILITY THAT REMAINED

A NUMBER YOU CANNOT DEFEND IS WORSE THAN NO NUMBER.

“Used by every team in the region for two years
after I left it.”

WHAT YOU MAY KEEP

Outcomes, decisions, what you learned, non-confidential
examples in your own words. Not documents, not data,
not anything employer-owned.

THREE PARAGRAPHS

BEFORE

What did not exist.

BUILD

What you created underneath the output.

RETURN

What is different now—and how someone else could tell.

KEEP THE PROOF

A 60-MINUTE CAREER EVIDENCE SYSTEM

Reconstruct the before. Name what you built.
Record what it returned.
