

VIDEO ONE · CAPABILITY FORMATION

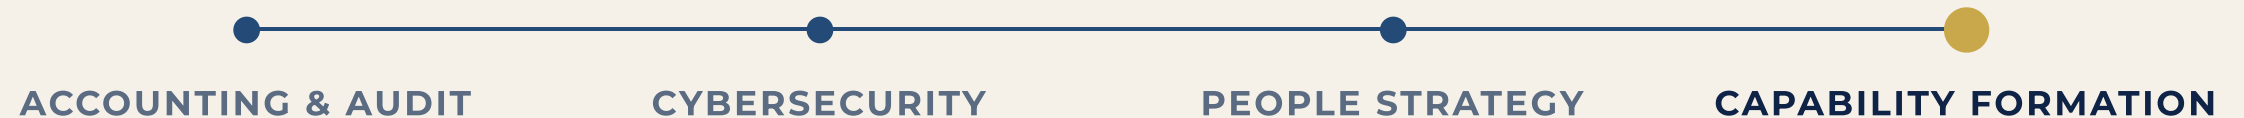

How I Changed Jobs Without Starting My Career Over

Temidayo Afonja · temidayoafonja.com

MY CAREER PATH

What connected those career changes

Accounting and audit trained me to look for evidence, controls, risk and what a system was failing to reveal. I carried that way of seeing into cybersecurity and later into people strategy.

Along the way: consulting, life sciences, technology

THREE THINGS I LEARNED TO DO

01

Look underneath the title

What has the work actually trained you to do?

MOVE ONE

Look underneath the title.

Name what the work has trained you to notice, decide and solve.

- 01 **What problems do people trust me to solve?**

- 02 **What decisions can I now make with better judgment?**

- 03 **What could I do in another setting because of what I learned here?**

THREE THINGS I LEARNED TO DO

02

Explain what the work changed

What changed because you were there?

MOVE TWO

Explain what the work changed.

Ask: What changed because I was there?

Internal description

Led an onboarding redesign.

What another employer
can understand

I led an onboarding redesign with my team. One measure of how well new hires felt integrated moved from 47 to 75.

ONE RESULT

One measure of new-hire integration

A team result from a redesign I led

47

75

Before the redesign

After the redesign

THREE THINGS I LEARNED TO DO

03

Keep evidence before you need it

Capture the context, your role and what changed.

MOVE THREE

Keep evidence before you need it.

Write a permitted, high-level account in your own words.
Leave confidential and employer-owned material out.

Situation

New hires needed a stronger integration experience.

My role

I led the onboarding redesign with my team.

What changed

One measure of how well new hires felt integrated moved from 47 to 75.

What this shows

I can diagnose a weak point in the employee experience and lead a redesign that improves it.

THREE THINGS I LEARNED TO DO

What helped me carry my experience forward.

01

**Look underneath
the title**

02

**Explain what
the work changed**

03

**Keep evidence
before you need it**

BEFORE YOUR NEXT MOVE

**Write down your answers
to these three questions.**

- 01** What can I solve now
that I could not solve two years ago?

- 02** What result can I describe in language
another employer would understand?

- 03** What could I still do if the title,
employer or industry changed?

THE CAPABILITY FORMATION FIELD KIT

Is your job still building you?

Complete a private, evidence-led career position assessment using the last 90 days of your actual work.

temidayoafonja.com/fieldkit

Part Two: Optionality
Market portability. Six statements, out of 30.

7. The capability I am building would be valued by an employer in a different market.
EVIDENCE (last ninety days):

8. I can describe what I do in terms of outcomes, not just my company's processes.
EVIDENCE (last ninety days):

9. If my role disappeared tomorrow, the capability I built would still be valuable.
EVIDENCE (last ninety days):

10. People with the power to hire or advance me, inside or outside my company, see what I am good at.
EVIDENCE (last ninety days):

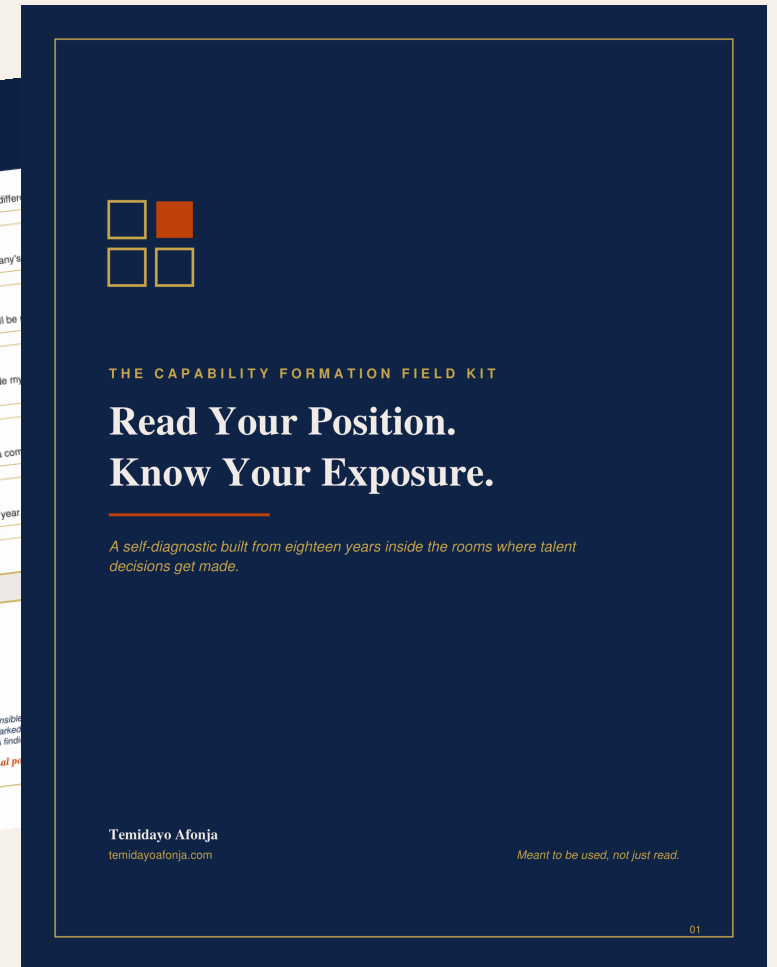

11. What I am learning is a transferable capability rather than a company-specific skill.
EVIDENCE (last ninety days):

12. I could rebuild a strong position somewhere else within a year.
EVIDENCE (last ninety days):

Add the six answers. Optionality score (out of 30):

If you cannot support a score either way, write your most defensible score. Do not force it downward and do not default to a 3. One or two marked mean you do not have ninety days of evidence on that axis. A final score without an evidence line is a guess with decimal points.
