

STAY OR LEAVE? 60-MINUTE RUN SHEET

Wednesday, September 23, 2026 . 6:00 PM CT . Live Career Growth Assessment . Temidayo Afonja

FOUR RULES THAT NEVER BEND

- The twelve minutes at 19:00 are not yours to spend. Take time back on slides 20 and 21, never here.
- Never ask who is in which square. Their score stays theirs.
- Stop the recording before Q&A. Not pause. Confirm on screen, then say so aloud.
- No square is a goal. Compounding is a fact about the grid, not a destination.

MINUTES	#	ON SCREEN, AND WHAT YOU DO	WB
PART 1 SET UP			
0:00-0:30	1	START THE RECORDING. Welcome, name the session, the method, the length. Bio is two sentences.	
0:30-1:20	2	Reframe for fifteen seconds, then the audit into cybersecurity story. The story earns the method.	
1:20-2:00	3	Recording and privacy disclosure. Say it once, do not expand it. Workbook is open from the start.	1
2:00-3:30	4	DENSITY. Is the work still building you? Ordinary language first, then the word.	
3:30-5:00	5	OPTIONALITY. Will what you build still travel? Ordinary language first, then the word.	
PART 2 FIRST READ, FROM MEMORY			
5:00-6:40	6	Statements 1 to 3. Read each once, then stay silent. Do not fill the silence.	2
6:40-8:10	7	Statements 4 to 6.	2
8:10-8:40	8	Density total.	2
8:40-10:10	9	Statements 7 to 9.	3
10:10-11:40	10	Statements 10 to 12.	3
11:40-12:00	11	Optionality total.	3
12:00-13:00	12	The four states. Name each square once. No state costs here, no asking who is where. Say: Fragile is not worst, Stagnant is where neither axis is moving. Screen only, not page 7.	
13:00-14:00	13	First placement. Cross the two totals, tick one square. Privately, and provisionally.	3
PART 3 TEACH THE EVIDENCE RULE			
14:00-16:00	14	The evidence protocol. The rule that turns a feeling into a reading.	4
16:00-19:00	15	Three ways a self-score goes wrong. This is what makes the second read honest.	4
PART 4 SECOND READ, AGAINST EVIDENCE			
19:00-31:00	16	RESCORE ALL TWELVE, WITH AN EVIDENCE LINE. PROTECTED AND NON-NEGOTIABLE. Do not shorten this.	5-6
31:00-32:30	17	Re-total both axes.	5-6
32:30-34:00	18	When the evidence is still uncertain. Sensitivity check. A boundary reading is a legitimate result.	7
34:00-35:00	19	Corrected placement and confidence. They compare it with the tick they made on page 3.	7
PART 5 SO WHAT			
35:00-38:00	20	What each state costs. Stagnant, Depth Trap, Fragile, Compounding. Forty-five seconds each, then move. Do not go deeper on whichever square the room seems to be sitting in.	
38:00-41:00	21	Seven categories of move. Directions, not plans. About twenty-five seconds each.	8
41:00-45:00	22	THE NEXT-MOVE NOTE. Four minutes of real writing. Protect it like the twelve.	8
PART 6 CLOSE			
45:00-46:00	23	Two routes to continue the read. Sixty seconds, no pressure.	
46:00-47:00	24	The session against the Field Kit. Say it as a difference, not a pitch.	
47:00-48:00	25	The close. Then hold 48:00 to 50:00 as buffer. LAST RECORDED SLIDE.	
Q&A LIVE ONLY, NEVER DISTRIBUTED			
50:00-60:00	26	STOP THE RECORDING. Confirm on screen, say so aloud, then take the first question. Clarify method, evidence rule, boundary readings, move categories. HARD STOP AT 60:00.	

WORKBOOK RUNS FRONT TO BACK AND NEVER JUMPS BACK. p1 at 1:20 p2 at 5:00 p3 at 8:40 p4 at 14:00 p5-6 at 19:00 p7 at 32:30 p8 at 38:00

Say the page number out loud BEFORE you start talking, not after. People who are writing are not listening.
