How I Changed Jobs Without Starting My Career Over

MY PATH WAS NOT STRAIGHT

**The titles changed.
The capability kept accumulating.**

THE THREE MOVES

**Three practices that
carried the value forward.**

01

**Separate the title
from the capability**

02

**Translate the work
into outcomes**

03

**Keep evidence
before you need it**

MOVE ONE

Separate the title from the capability.

A title tells people where the work sat. It does not tell them what the work trained you to see, decide or solve.

- 01 **What problems can I now solve?**

- 02 **What decisions can I make with better judgment?**

- 03 **What can I do today that I could not do two years ago?**

- 04 **What would remain mine if this role disappeared?**

“If my role disappeared tomorrow,
the capability I built would still
be mine to carry.”

Statement 9 • score 1-5

MOVE TWO

Translate the work into outcomes.

The translation question: what changed because I was there?

Internal description

**Led an onboarding
redesign.**

Portable outcome

**Helped redesign the new-hire
integration experience; the
integrating score moved from
47 to 75.**

Outcome language: time saved · errors reduced · adoption improved · risk lowered · retention strengthened · capability built

MOVE TWO • THE EVIDENCE

Onboarding redesign.

A score without an evidence line is a guess with decimal points.

of outcomes, not just my company’s
internal language.”

Part Two: Optionality
Market portability. Six statements, out of 30.

7. The capability I am building would be valued by an employer in a different market.
EVIDENCE (last ninety days):

8. I can describe what I do in terms of outcomes, not just my company's processes.
EVIDENCE (last ninety days):

9. If my role disappeared tomorrow, the capability I built would still be valuable.
EVIDENCE (last ninety days):

10. People with the power to hire or advance me, inside or outside my current organization, would value my skills.
EVIDENCE (last ninety days):

11. What I am learning is a transferable capability rather than a company-specific skill.
EVIDENCE (last ninety days):

12. I could rebuild a strong position somewhere else within a year.
EVIDENCE (last ninety days):

Add the six answers. Optionality score (out of 30):

If you cannot support a score either way, write your most defensible score. Do not force it downward and do not default to a 3. One or two marked mean you do not have ninety days of evidence on that axis. A final mean you do not have ninety days of evidence on that axis.

A score without an evidence line is a guess with decimal points.

MOVE THREE

Keep evidence before you need it.

A 90-day record. No confidential information required.

Problem

New hires needed a stronger integration experience.

Action

Led the onboarding redesign with the team.

Outcome

The integrating score moved from 47 to 75.

Capability

Diagnosing an employee-experience problem and leading a measurable organizational response.

BEFORE YOUR NEXT MOVE

Three questions.

What can I solve?

What problem can I solve today
that I could not solve two years ago?

What changed?

What outcome have I produced
that another employer would understand?

What can I carry?

If my current role disappeared tomorrow,
what capability would still be mine?
